CORRECTED RESPONSE

Further to the response in the above matter submitted on 15 September 2004, Applicant submits this Supplemental Response.

In the Office Action of 25 June 2004, the Examiner indicates that "the prior art cited in the indicated publication has been reviewed." However, to avoid any confusion as to just what that art was, Applicant submits herewith a Supplemental IDS which lists U.S. Patent No. 5,527,005, which was of record in the prior application reviewed by the Examiner. Because this reference was part of the record, such submission is considered timely and is provided merely for the sake of completeness and certainty in the record.

Applicant submits herewith a set of replacement claims in which Claim 5 is currently amended to recite more clearly that which the patentee considers to be his invention. No new matter is added by this amendment. Should the Examiner deem it helpful or have any questions with regard to this submission, he is encouraged to contact Applicant's attorney, Michael A. Glenn, at (650) 474-8000.

Respectfully submitted,

A handwritten signature in cursive script that reads "Julia A. Thomas". The signature is written in dark ink and is positioned above a horizontal line.
